THE PILATUS PC-24

This precisely-built Swiss aircraft features more range and more payload, so it can travel farther with fewer fuel stops and carry more passengers. It can also land on shorter runways, snow, gravel, grass, or dirt, so you can go more places. Whether you're on a solo business trip or going to that spot you love for a getaway, the PC-24 is made to maximize your time.

WHAT PC-24 OFFERS ON THE INSIDE

- ◆ A spacious cabin larger than other business jets of its class.
- ◆ Plush executive-style seating with unparalleled comfort.
- ◆ Wifi for email, texting, and other needs.
- ◆ Smartphone control over cabin lighting and temperature.
- ◆ Tables for working or recreation, plus high-end alcohol and snacks.
- ◆ A cargo door feature at the back so loading up is fast.
